Instruction on Registration For HNPW
To join the sessions, firstly, you will have to register for the entire event by login/signup on the HNPW website;

Please note that registering for the entire event is not sufficient and does not guarantee your participation. Hence it is important to register for all sessions of interest so that you can receive connection details shared by sessions organizers;

The connection details will be shared by either public sharing on the website with logged in persons a week prior to session start and sent by email to registered persons a few days prior to session; or direct email to registered persons a few days prior to session;

In the following slides, you will find the step-by-step guide on how to register for both the entire event and the sessions of interest.

Importance of registration
Step 1: Go to www.hnpw.org
Step 2:
- Go to “Event Programme”, click on “Networks” on the left side of your screen; you will see CBi and click on it;
- you will notably find our sessions, scheduled from 26 - 29 April; Click the “Register” button for the session you want to participate in;
- You can also explore other sessions during HNPW by selecting the filter.

The interactive event programme of HNPW 2021 will be regularly updated with new sessions, agendas, connection details and session outcomes. The program allows to search for sessions in the area of preference by keyword and organizing networks and contain links to access the session information and to bookmark or register for sessions of interest or view to other registered participants.

CBI - Private sector engagement in humanitarian-development-peace collaboration

Abstract

The UN emphasizes the need to bridge the gap between humanitarian, development and peace silos and advocates for closer collaboration between the different actors. It calls for shared analysis, collective priority setting, as well as joined up planning and programming with the overall aim of reducing humanitarian need, risk and vulnerability. As part of the communities in which they operate, businesses have an innate interest to support before, during and after crises, often seamlessly moving across humanitarian, development and peacebuilding responses. This session will discuss how and when do humanitarian, development and peace practitioners come together with private sector entities to leverage their comparative advantages. It will make a strong case that private sector actors should be encouraged to actively participate in the different elements of the nexus approach. Through an interactive panel discussion, speakers will highlight concrete examples of how strengthened collaboration and coordination with and among the private sector have benefitted vulnerable people.

Objectives

- Explore the possibilities for the private sector to engage in humanitarian-development-peace collaboration;
- Highlight good practices and lessons learned of humanitarian, development and peace practitioners working alongside the private sector;
- Suggest practical ways how different partners can work together with the private sector towards achieving collective outcomes.

Speakers

- Farzad "Hush" Hashim, Country Director or Michelle Joseph, Global Partnerships and Program Specialist, Asia Pacific Alliance for Disaster
Step 3: Once clicking “register”, you will be leading to the login page.

- If you have an OSOCC account, login with your username and password;
- If you don’t have one, click “create a new virtual OSOCC account to register”, and you will be leading to a signup page.
Step 4:

- After login/sign-up, you will see the message on successful registration. You can find all your registration sessions on the upper, right side.
- You will receive connection details either on the website a week prior to session start or by a direct email a few days prior to session.
